RE: DHCD Economic Impact Template Process Update for Statewide Competitive Applications

DHCD no longer has a contract with George Mason University's Center for Regional Analysis to perform third-party reviews. Please do not contact GMU for support completing the economic impact template for GO Virginia submissions.

Applicants must complete the DHCD Economic Impact Analysis Template (with support from the Regional Support Organization, as needed) and use Question #5 of the Statewide Competitive Application to explain the methodology, list data sources, and justify all inputs used in the template. DHCD will review and validate submission.

Please note an economic impact analysis is required for statewide competitive applications.
